

Storage by EAGLE

Software, Inc.

Since 1981, EAGLE has been meeting the business needs of our customers by providing quality products and services. Our focus on integrating cutting-edge storage solutions, while offering world class service and support, has helped us develop into a recognized and well-respected storage solution provider.

EAGLE specializes in providing a total solution — hardware, software, services and support. We provide an umbrella of solutions and services to “make storage easy”. We work with many different types of businesses and enterprises, with data centers of all sizes, from several hundred gigabytes to hundreds of terabytes. We offer best-of-breed solutions, but what makes us unique is our outstanding customer service and support. Hundreds of satisfied EAGLE customers agree that our success lies in our excellent people, whose goal is to make managing your storage environment simple and painless.

Whether you're a storage administrator or CTO faced with a storage project, we can make managing your storage easy.

QUALITY CUSTOMER SERVICE AND SUPPORT

ASSESSMENT – Our engineers are trained and certified to evaluate your current storage and backup environment and propose methods to tune existing systems or add new solutions.

DESIGN – We have more than 25 years of experience designing optimum storage and backup solutions for all types of environments and business needs.

BEST PRACTICES – Data protection must be faultless. We offer services and products to assess your current methods and help fine-tune a protocol for faultless data protection.

IMPLEMENTATION – Our experienced engineers are available to install and implement your storage solution.

TRAINING – Storage is our business. Let us train your staff to flawlessly manage your storage environment.

MONITORING – EAGLE offers EAGLE Watch™ a suite of services to assist you by monitoring and administering your storage environment or backup applications. Whether you want remote monitoring or onsite administration, we have a service option to meet your needs.

Our customers value the outstanding support they receive from EAGLE. The longevity we've enjoyed in the storage arena is largely due to providing outstanding support to our clients. Included in every sale, we offer:

24x7x365, **TOLL-FREE SUPPORT** from experienced engineers for all EAGLE Watch™ Qualified Products

A **SINGLE POINT OF CONTACT** for all your storage support needs

Escalated **STATUS** for vendor support

NOTIFICATION of annual support contract and warranty renewal

EXCELLENT STORAGE SOLUTIONS

After years of experience, and extensive industry research, we've chosen storage products with the highest reliability, outstanding performance, ease of use and scalability. These cost-effective solutions will meet your current business needs and scale for future storage requirements.

SAN STORAGE SOLUTIONS AND CONNECTIVITY

EAGLE is proud to offer SAN storage solutions that feature cutting-edge technology along with a flexible foundation for your storage needs. Implementing a SAN is a big decision. Our team members can help you realize the benefits of a SAN—from vastly simplifying your storage administration, to allowing you to grow and change your environment with as little effort and interruption as possible. We offer both Fibre Channel and iSCSI solutions, which feature:

Storage **VIRTUALIZATION**

SCALABILITY to grow with your business

Data **REPLICATION**

EASE of use

BACKUP HARDWARE

EAGLE has been implementing backup solutions since 1991, and we've teamed up with vendors who offer technology with these innovative features:

HIGH CAPACITY products with industry-leading storage density

EASE of use

RELIABLE performance

COMPATIBILITY with leading backup software packages

SCALABILITY with capacities ranging from 200 gigabytes to many terabytes

UPGRADES for new drive and media technology

BACKUP SOFTWARE

EAGLE offers a number of backup software packages to meet the specific needs of diverse environments. We are certified by vendors, and have the expertise to install, train and monitor your solution to ensure return on your investment. The software solutions we offer provide:

SUPPORT for many different types of hardware and operating systems

FAST, RELIABLE AND COMPLETE data backup and recovery

EASE of installation and use

SEAMLESS automation for a "lights out" solution
